Exposure of the Kansas Abolition League

Below we give the exposure, by PAT. McLAUGHLIN, of the Kansas Abolition Legion, which, no doubt, brought on the state then told me to call the next day. I reof things now existing in that Torritory. turned the next day; he gave me two Conbeen done.

From the St. Joseph Cycle, October 26. Traitors Expos MESSRS. EDITORS:

Allow me through the columns of your valuable paper, to lay before your many intelligent readers, some very important and startling facts in relation to a subject in which the South, and I may say the whole nation is deeply interested. But before proceeding farther, permit me

to say, it is not for the purpose of gaining for myself any newspaper notoriety, that I have been induced to publish to the world, the midnight treasons of a party with which I regret to say, I have acted, alas! too long. Yet in leaving that party, and making the exposition I do of so many of its leading members, I am not ignorant of less than twenty cents per line.

Advertisements not considered by the year, halfthe danger to which I hazard not only my yearly or quarterly, unless specially agreed upon; and the privilege of yearly advertisers will be confined to their regular business, and other advertisements, not both will be violently assailed. But rerelating to their business as agreed for, to be paid for gardless of the imminent danger that surrounds me I will come out unmasked as is the duty of every good citizen, let the result be what it will and show to the nation the midnight wire-working-the treasonable actions of an abolition faction whose Having recently added a variety of new type to our JOB OFFICE, we are now prepared to execute all orders for any and every kind of Job Printing, in the beautiful shall flow torrents of human gore. Yes, Americans shall be arrayed against Americans in their beautiful land; here shall the bonds of the union be severed and here will liberty be destroyed; anarchy shall follow, and out of confusion and the smoking ruins of our liberties shall spring that abominable thing, an unlimited monarchy. These are not fancy sketches; they originated in my mind by calm reason, and were nursed and brought to maturity by long observation and much intercourse with this evil-designing party. A party with warm in the cause of the Reeder party, for which I connected myself, not for honor is began to be convinced more than ever gently, the little rivulet which glides nor emolument but through sympathy, because I thought the rights of the people were involved, and the laws violated by the citizens of Missouri (only) and because I felt I could endorse the sentiments of the free state party, who held out the idea to me that they were for prohibiting the admission of negroes, bond or free, into the territory; that they endorsed the fugitive slave law, the Kansas and Nebraska bill, and that they would only take honorable steps to carry their principles out. Such patriotic principles I felt were in perfect accordance with my own private views. I felt I could unite with such a party, and labor assiduously in such a cause. I did unite with them; I felt I was embarked in a good cause, and God knows I was to them a "good and faithful servant." I rode night and day, neglected my own private business, for what I thought the public good. Little dreaming that I was at that time strengthening and spreading the cause of that damnable faction, the abolition party-whose negro love far exceeds their

ove of liberty or love of country. But I do not wish to be understood as nected with this party, nor all who are by force into obedience to the present laws eral Assembly of Kentucky. A competent reporter I did belong; for I am personally acquainted with many who are members of both Robinson, of Lawrence, K. T., advised the the ensuing morning. The Commonwealth will thus who are as good citizens as any in the land, and many of whom I believe will endorse my conduct in making the exposition I do. should act upon this in a private manner.

The motion was withdrawn. This I think constituents, keeping the latter informed not only o Many of them I believe are ignorant of the net work in which they are caught, and of the manner in which they are entangled.

They are not aware, perhaps, that they are bound under solemn obligation, as soon as whose midnight wire-working will, if alan abolition faction shall call on them, to lowed to proceed, sever the ties of this forsake their families, and all that is dear union, and finally overthrow our liberties, hand, to shed the blood of their countrymen; yet this, though strange, is all a matter of fact, as I shall prove to the satisfaction of all unprejudiced minds. In order to do this, it is necessary for me to give a

Convention. I was one among the ten ful wretch if I failed to shew to the world who attended. I was sent at the request of several of the Delegates, a few days ahead of the others in order to inquire into the state of the party, as well as to have some printing done. When I arrived at a place called Ocena, in Atchison county, I stopped to inquire the way to Lawrence. I soon found I had dropped into the house of one of our party. A conversation sprung up between us in which I took a very important part, and denounced in new to the secret action of a party who are led by and reverence the following Constitution and Ritual more than they do the constitution and Ritual more than they do the constitution and laws of their country:

I went to Mr. Brown's office and introduced myself, showing him the proceedings of our lished to the several Territorial Encampmeeting, which he commented on in a very criticising way, saying we had done very wrong by adopting some of our resolutions, which were opposed to the admission of free negroes into the future State of Kan- God." sas, because, he said, it would "give offence to many of our best friends in the North.' I answered these are our sentiments, independent of Northern abolitionists, or Southern nullifiers. I then let Mr. Brown know that I was a member of the secret order, after which he hesitated a good deal and much sooner than would otherwise have stitutions for the county, and two for the town of Doniphan, in which I was to organize a society. Our delegates were informed at Big Spring, that I had the Constitutions to organize them into a society. When I returned, I was immediately put at to organize them, which I did, and until

I then went on my way to Lawrence, and

after then, I never read their Constitution. I then spoke to some of the men in the county, who would go into it only on condition, and appeared very lukewarm in regard to it. I gave them no encouragement and felt that my mission was done, as I had promised. I then felt that I was at liberty to remain silent, and push this thing no farther. I concluded I had better keep the two copies of the Constitution, which I thought would be useful to me in making this exposition; a thing I determined on doing as soon as I discovered their treasonable designs. But I must come to the point, and make known the object of this society, and the

manner in which it is organized. Its object is to make Kansas a free State, by force of arms, if they fail to carry their point by legal means. To effect this, they have organize d a society, or secret army, who are provided with Sharpe's rifles, free of charge (I saw many of those rifle, and other equipments in Lawrence) by an organization in Boston, Mass., got up for the surpose of aiding the abolitionists in Kan- irritability; little inequalities in the look, sas to make it a free State. the nomination of Mr. Clay in 1852. There can be no doubt, judging from these letters, that Mr. Clay was deeply disappointed and chagrined at the nomina tion of General Taylor-and that this disappointment was not softened by the letters in which General Taylor sought to relieve himself from any suspicion of having taken part in any movements hostile to Mr. Clay. But it is also apparent that he did not suf for this personal chagrin to interfere in the slightest degree with the discharge of his public duties, or to swerve him a hair's breadth from the political course which his judgment had marked out. This disclosure of his private feelings, under circumstances well calculated to try his temper and test his patriotism, cannot fail to strengthen the conviction that a high minded devotion to the public good was pre-eminently the guide of his public career.

Hope not that wind or wave will bring
The treasure back when needed.

The summer's warmth is healing.
And its clusters still may glow

But if thou hast a cup o'erthrown,
With a bright draught filled—oh! never
Shall give earth back that lavished wealth
To cool thy parched lips' fever.

The heart is like that cup,

From the Cincinnati Gazette. Christmas at Mr. Brown's.

BY T. S. AUTHUR. "How many days to Christmas, Papa?" enquired an earnest little voice, as a pair of soft hands were pressed fondly against the cheeks of Mr. Brown.

"Just ten days," answered Mr. Brown : but not in tones of equal interest. "Ten days! Oh, that is such a long time! I wish it was to-morrow."

"You do !" "Yes, indeed, Papa, ten days! That's taking but a single cup of coffee. more than a week, is'nt it?" "Yes, three days more than a week."

"Well, I wish it was to-morrow." "Why so soon, petty!" "Don'tyou know"! And the child smiled archly in her father's face.

remark applies here, I do not so plainly You see that the children have set their

hearts on a repetition of the same extravagance this year. Now, it does not seem to me right to

spend money in this way. If I do not, of course they will be disappointed and unhappy. So, the pleasure conferred last year, will be the cause of pain now."

Mrs. Brown was silent. Not that she felt the force of what her her husband said -her heart, as we have before remarked, was with her little ones, and the thought of ointment, troubled her spirits; and all the more, because she saw that Mr. Brown was really in earnest.

"I made up my mind last year," said Mr. Brown, "that I would never waste as much money foolishly again. Fifty dollars in China dolls, jumping jacks, sugar tors, and such like Tom-fooleries was a wicked waste-and so much real want and suffering all around us. It kept me awake a good many hours, thinking about it. And I don't believe the children were any happier in the end."
